

## A FAMILY

A family is  
A celebration of quality time,  
Fun during any occasion,  
Joyful through all things,  
Enjoyable to one another.

A family is  
Needed to help one grow,  
Loving in all ways,  
Kindness through actions,  
Caring for each other.

A family is  
As bright as the shining stars on a dark night,  
As fresh as blooming flowers on a warm spring day,  
As colorful as blowing leaves during an autumn wind,  
As unique as the crescent moon painted on the evening sky.

A family is  
As beautiful as a sunrise early in the morning,  
As inviting as the ocean on a hot summer day,  
As solid as a sedimentary rock joined by nature,  
As important as the life sustaining oxygen rising high.
