the TEAM CONCEPT

When Diane first started in the Real Estate industry more than 21 years ago, the number of forms and other paperwork required to purchase a new home was one tenth of what is required today. Back then, the typical transaction had no requirement for inspections, agency relationships were single-minded toward the seller and her referral business was nonexistent.

Since then, so much has changed that we can't begin to list it all here. Diane has become one of the premiere real estate agents in all of St. Louis (top one percent) and the number one agent companywide for Prudential Select Properties.

One person alone cannot properly devote enough time to properly service her clients and customers. Diane was one of the first in this area to adopt the team concept that is now used by top producing agents everywhere. Diane is very proud of her team and feels that the service she and her team provides is the best anywhere.

Types of Service we can Provide ...

- seller and buyer agency
- new home purchases
- custom home builder sales
- investment and "as is" sales
- vacant lot and tear-down purchases
- vacation and second home sales
