This chart combines the “sold” attached and detached residential listings of all office locations and independent offices of each multi-office or franchise organization identified. It includes which listings were sold by such organization itself, or with the aid of a cooperating broker for the geographic area and time period indicated, according to data by Midwest Real Estate Data, LLC (MRED). This representation is based in whole or in part on data supplied by MRED. MRED does not guarantee or is in any way responsible for its accuracy. Data maintained by MRED may not reflect all real estate activity in the market. This graph lists up to the top six competitors in the market indicated. © 2010 RE/MAX Northern Illinois.
